Colours is excited to announce the acquisition of Auto Body Specialties with locations in Minnesota and South Dakota.

ABS was founded in 1950 by Harley and Sallie Roddel. With a commitment to providing quality service and products, they continued to expand from the original store to five locations. In 1980, Roddel's five children purchased the business and continued to build on the foundation that their parents had built. President Jim Roddel, along with the entire ABS team have continued the family legacy, led by faith, integrity and exceptional service.

Colours would like to extend a warm welcome to the entire ABS Team as they join the Colours organization and family. We look forward to many years of growth in the mid-west.
